## EDUCATION

### Al-Albays University

Bachelor of Science in Renewable  
Energy Engineering  
Graduated in 2021  
GPA: 89.4 (Excellent)

### Coding Academy By Orange

Full Stack Web Development Bootcamp  
4/June/2023 - present

## TECHNICAL SKILLS

### Web Development:

- Front-end development (HTML, CSS, JavaScript, Bootstrap, React JS)
- Back-end development (PHP, Laravel, WordPress)
- Database Management (SQL, MySQL, MySQLi, PDO)
- Platform (GitHub, Trello, VS code, Miro, DrawSQL)

### Renewable Energy Design:

- Solar PV system design
- Structural analysis for solar installations

## PROJECTS

### 1. Car Parts E-commerce Platform (PHP)

Developed a PHP-based e-commerce platform for car parts, focusing on back-end development.

### 2. HopeHarbor Donation Platform (Laravel)

Led the development of "HopeHarbor," a Laravel-based donation platform for seamless charitable giving.

### 3. Company Exam Quiz Website (JavaScript)

Developed a JavaScript-based quiz site for company exams with user-friendly features like timers and score calculation.

## OBJECTIVE

Determined Renewable Energy Engineer with 1.5 years of successful experience in PV system design, having transitioned to the IT field through rigorous training at the Orange Academy coding course (Full-Stack Web Development). Eager to leverage my dual expertise to excel in innovation and problem-solving. Actively seeking an internship opportunity to showcase my strong skills and commitment to the work ethics.

## WORK EXPERIENCE

○ Jun 2023 - Present

### Coding Academy By Orange

#### Full-stack web developer trainee

Gained proficiency in various essential aspects of web development, including:

- Front-End Development: Successfully completed projects using HTML, CSS, JavaScript, and React.
- Back-End Development: Developed web applications and websites using PHP, Laravel, and WordPress.
- Database Management: Created and managed databases using SQL, MySQL, MySQLi, and PDO.
- Demonstrated the ability to apply these skills through hands-on projects, showcasing competence in each technology.

○ Jun 2021 – Jan 2023

### AL-SHEHAB FOR RENEWABLE ENERGY

#### PV System designer Engineer

- Designed and engineered PV systems, optimizing PV modules, and inverters.
- Created steel structures using Sketchup and Staadpro systems.
- Developed electrical plans for solar system projects.
- Designed over 2 MWp of solar systems.

○ SEP 2021 – DEC 2021

### ARISTO FOR RENEWABLE ENERGY

#### PV System Design Engineer

designing pv systemes using the following tools

- PVsyst, Staadpro, AutoCAD and Sketchup
- Microsoft office and power bi for data analyses

## SKILLS

- Communication and teamwork
- Problem-solving and critical thinking
- Time & Stress Management
- Willingness to Learn
- Fast & self Learner
- Creativity

## LANGUAGES

- Arabic (Native)
- English (Very Good)
